

## OUR MISSION

To enable rural pastors to spread the Gospel in Tanzania. Our main tool is to provide safe clean water to these pastors, churches and rural communities. This helps the humanitarian water crisis and provides the pastor with an outreach tool to invite thousands of nearby villagers to come share the "living water" and receive the Gospel of Jesus Christ.

## OUR PROGRESS

By this summer we will have completed our 110<sup>th</sup> safe water project covering all 26 Regions of Tanzania. All projects are installed on rural church grounds. **Thank you to those of you who have supported our mission.** There are children alive in Tanzania today because of you!

### THE GREATEST CHALLENGE OF OUR TIME

We Americans take our safe drinking water for granted! Consider that in poor countries more than 1,000 children under the age of 5 die each day from illnesses caused by unsafe water, sanitation, and hygiene. In the world's poorest countries, every 60 seconds a child dies from a diarrheal disease caused by unsafe water **Let that sink in.** Unthinkable!

Safe Water is one of the world's biggest challenges as it is essential for life, health, social, environmental and economic well-being. More than 200 million hours are spent each day collecting water, predominantly by women and children, often from polluted sources far from home. Yet, despite many efforts to remedy this, it remains one of the greatest challenges of our time around the world.

Access to safe drinking water is a staggering issue worldwide for almost one billion people. Unsafe water and lack of sanitation kill over 30,000 people each month with children affected the most. Living with dirty water, and the sickness it brings, takes a heavy toll on the survivors.

We have the opportunity, with your help, to provide Safe water that can transform communities by eliminating the need for many medical clinics devoted to water related illnesses and allowing communities to focus on faith, education, commerce, and a better life.

Our projects are installed on rural church properties where the pastor also uses the safe water to attract villagers to his church so they may hear the Gospel of Jesus Christ! We are saving lives physically and spiritually! Thank you for your support. **Join us!**

### HONOR A LOVED ONE

You have a unique opportunity to honor your hero or loved one with a tribute that will last for generations to come by sponsoring a life sustaining memorial safe water project in their memory. We have put 20 memorial projects in place so far including memorial plaques at each site. What a wonderful way to leave a lasting legacy for a loved one.
